

If you are a drug user who does not inject, there is no need to read any further - the advice is simple - "don't start".

This leaflet aims to help you find out where services are located.

When you visit the service you will need to speak with the pharmacist or harm reduction worker who will register you. You will be asked for your initials, date of birth and first half of your post code. All information is confidential.

Injecting any drug carries the risk of infection and injury and increases your risk of overdose. If you do inject please take care of your veins and protect your health by following these steps:

- Always wash your hands with soap and water before and after injecting.
- Use a clean surface to prepare your injection.
- Always use a full set of new equipment for EVERY injection.
- **DO NOT share, borrow or lend equipment.**
- Always use the smallest, thinnest needle possible for the injection site.
- Always use best choice of water available.
- Don't use too much citric.
- Rotate your injection site; using the same site can cause the vein to collapse.
- Put all used equipment in the bin provided and bring it back.
- Don't inject alone and know what to do in an emergency.

Overdose Awareness and Naloxone training is available at the harm reduction service. Training and Naloxone supply is provided by Pharmacy outlets.

Complaints

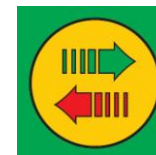

We make every effort to meet the needs of those who use the service. We welcome your comments and suggestions. We may not always get it right and clients are encouraged to make us aware if this happens.

If complaints cannot be solved informally there is a formal procedure. This procedure is outlined in the leaflet "NHS Complaints Procedure". For more information contact: Patients Relations at:
Tel: 01324 678530
E: fv-uhb.complaints@nhs.net.

Injecting Equipment Provision Services

There is needle exchange where you see this sign:

Please dispose of used equipment in the bin provided and BRING IT BACK!

Remember the Pharmacy & Harm Reduction Services provide a very valuable public health service for you and your community.

Confidentiality

The client's permission is required to share information with other relevant services involved in their care. If a client is suspected of harming him/herself or others, information may be passed on even if consent is withheld.

Change Grow Live (CGL)

You can get advice about your drug use and health needs, even if you don't want to stop using or cut down. You can also get help with budgeting and housing issues.

Overdose awareness and Naloxone training are available.

Treatment services can help you to reduce your risk of infection and injury from injecting.

CGL, Tel: 0808 196 2188 (free phone)
